What I did over the winter break is I went to the I.P. Casino. When we got there we went to the restaurant. After we left the restaurant we went to the arcade. When we were done we went up the elevator to get to our room. The elevator music was weird. I heard screaming crazy people and I think I heard a person's guitar break. When we got to our room we watched TV a little and then went to sleep. The next day we woke up brushed our teeth and ate breakfast.

My favorite movie is toy story. Toy story is my favorite movie because the toys try to escape and my mom took me to go see it. My mom bought me popcorn and something to drink. The movie was funny and I was excited to see it. It was a great movie. I love that movie. In school I sometimes think about that movie. Now you know my favorite movie.

OK, last time I wrote about Christmas. Now I can tell you what I got! Well, I got a laptop, a radio, wrestling posters, wrestling pillow case, and a wrestling magazine. Well, that's all I can name, but I got other cool stuff! Now I can talk about wrestling. When I saw it, I saw Randy Orton, who I don't like, has to fight Sheamus, who I also don't like. I also saw Triple H throw Shaun Michaels over the top rope. I wonder what is going to happen at Royal Rumble.

Do you like to go to the beach? I do! My special place is the beach. I do a lot of fun things there. I play with beach balls, splash water, and make sand castles in the sand. What's special about it is when I go there it makes me feel excited to go there, like I never want to go home, and always have fun. I would like to thank my

parents, my friends, my grandparents, and my family for taking me to the beach. Now I have told you what my special place is. Can you tell me yours?

I am going to tell you about my favorite place I like to go. My favorite place I like to go is Sam's Fun City. You can get ice cream if you have a birthday party. If not you can't get ice cream. I like it because you can get in a little car and race around the track. If you win you can get a free turn and you get free tickets to get on the merry go round. That place is so special to me. Now you know why Sam's Fun City is my favorite place.

I was shooting a movie on a stormy day in the Red Falls Studio. The movie was about a boy that went to an eerie forest at night, while it was raining. So they thought it would be a perfect day to film it. Later, I started to pretend I was lost in the deep dark woods. All of a sudden I heard a sound, like a bear getting eaten. I turned around and saw the thing. "Roar"! The thing had 50 rows of razor sharp yellow teeth. Its head was a mess of eyes and teeth, with a tail that was like a mace with spikes, and what was that? "Poison"! My heart sank when I saw that it was poison. Good thing it was a movie! Boy was I wrong! I told the director to stop the movie, but then I realized the cord. The cord was plugged into the directors back. This was not a movie it was real. I had an idea. I would climb a tree which would cause it to bend and fling me onto the monster and then it would try to hit me with its mace. Then I would jump off and it would hit itself. So I climbed the tree, then let go. I miscalculated and got flung into the dirt. Then I woke up. I had actually fallen out of my bed. Wow! How crazy was that dream.

My favorite movie is "Taken." It is my favorite, because it is about a girl and her sister coming home from school (they are in high school). Her father is at some hotel and some guys in black came and take the girl while the other one hides
