Let me begin by telling you my favorite entertainer. My favorite entertainer is Michael Jackson. He is my favorite entertainer in the whole world. I like him and his music because his music is the best that I have ever heard. He is the best singer to me. It was sad that he died. His moves was the bomb, every body loves him. Since he died people have been talking about him on TV. It's not nice to talk about people when they die because God will probably not believe you about what you have done to people and people will probably do the same thing to you. They always say do not say bad things to people if you do not want to be picked back on. So do not pick on people like your friends, your parents, or people you do not know. Do not pick on people, not ever, not one time, not one.

Mr. Krab is my favorite entertainer. First of all Mr. Krab is my favorite entertainer because I think he is a good business crab. I think he is a good business crab because he makes a lot of money and supports all of his customers. He has an evil villain that tries to steal his secret formula. Mr. Krab has to strive to get to his goals and that is to keep the same amount of customers all year long. Mr. Krab is red and he has long eyes and a zigzag nose. Last of all, Mr. Krab is a good crab and he is a respectful crab too. That's why Mr. Krab is my favorite entertainer.

Crash! Booom! Finally I killed the goblin! I like playing my game because I can play with my friends on Xbox when I have the time. When I play it's like I'm in a whole new world with monsters and giant rats. The most important reason why I like my Xbox as my favor-

ite entertainment is that I get to buy games for the Xbox. That is why the Xbox is my favorite entertainment whenever I get the chance to do it. One reason why I like playing the games with my friends are that when we play no one gets mad about who won or who loss like one time me and Neal were playing a new race car game. I was winning the race Neal got mad he caught up and won. Although he won he did not boast or brag. Those are the kind of friends I like to play the game with. I like my friends coming over to play the game and so I don't have to clean up by myself when we're done. That is why I like my friends coming over to play the Xbox. Finally I feel like I'm in a whole new world because the Xbox games look realistic when I go into the woods on the game. I actually go outside on a planet. I can not walk because there is no gravity on the other world. That is what makes me think I go to a whole different world. Playing in a whole different world is fun and makes me hungry. "Mom, what do you have to snack on?" I holler. That is the real world. Now you know my Xbox totally rules because I can play with my friends. I can play new games for the Xbox and now you learned that Xbox is old but it could be fun if you know how to use it.
