Do you love books; I do especially Juliet Dove Queen of Love. It's a romantic story perfect for girls. It shows how love can be a blessing and curse. The story goes all the way back to the way age of the Greek gods. Let me go back into the beginning, and summarize for you. Juliet Dove is a shy girl who pretty much only have two friends Elezibeth and Aruto. She live in Venus Harper, while she walk home the mist rise from the street, and then she saw a shop that was never there before. She went inside and found an old lady who gave her an amulet, it was gold and has a beautiful face on it. Since Juliet Dove put it on, she became a living walking love magnet. To make things worst Aruto was affected too. While she was in the attic she heard a voice and soon when back in her room she found two rats who names were Jerome and Roxene. Turns out the voice were them. Juliet was still confused. The rats known as Jerome and Roxene filled her in on what was happening. She's now trapped in a love story and to free herself she has to free cupid who was trapped in the amulet by his own mother the goddess of love. Cupid loved Pysde who was prettier than his own mother. So she got jealous and sent Cupid to get rid of her, but he too became in love with Pysde. Still the tragedy continues. Can Juliet Dove get out of the horror of the love story? Go to your public library to find out today.

I like cheerleading because you can do tricks, back flips, and splits. I like when they throw the girl up in the air. I started to like cheerleading so I asked my mom if she could put me on a cheerleading team. I started to learn back flips and how to do cheers. When I was on the team, I felt excited, but when they throw you up in the air it felt scary. My favorite part of cheerleading is when they threw me in the air. It felt like if I was flying. I was captain of my cheerleading team. To be captain felt very hard job you had to teach them steps. What do you want to be when you grow up?

Go Tigers! I love cheerleading because when I'm there I learn new cheers. I cheer for the tigers. When I go I wear a tank top and shorts. I get to do flips, make pyramids, talk loud, and have fun. I also love cheerleading because we go to the best football games. It's so wild, exciting, and very energetic. The lights were bright, the benches are full, and everyone is having a great time. Going to the football games are fun, but watching and cheering at them are even more fun and that's the best thing about being a cheerleader. A few more things I can tell you about cheerleading. Our spirit colors are orange, black, and white with tiger stripes on our uniforms. In a few weeks we are going to the biggest tournament of all. We get ready by practicing and working hard. If we win we get a bigger building to cheer and practice in. Cheering is hard work. Sometimes two guys throw me in the air and I spin (it's called the helicopter). It was really fun. I made up a routine for the team. We do lots of flips and steps. I bet we are going to be in the top two, and beat all the other teams and win. What's your favorite sport?
